## Work History

2023-12 -  
2024-05

### Trainee Software Engineer

*Ace Infoway Pvt. Ltd. - Ahmedabad, India*

- Here at Ace Infoway Pvt. Ltd., I have worked with their live project that is "Shiftware", which is an Australia based project wherein I have created 2 modules i.e. Leave Management and E-learning module.
- In this organization, I have learned and gained experience in .Net Core Web API by creating RESTful API's and integrating it with Angular.

2021-05 -  
2021-11

### Backend Developer

*Exigio Tech - Vadodara, India*

- As a Full Stack Developer at this Company, I was responsible for building HRMS system using .Net Core and MySQL. My primary focus was on developing and implementing the system's back-end architecture, while also creating intuitive and responsive front-end user interfaces.

2020-11 -  
2021-04

### Software Testing Intern

*Codemastr - Vadodara, India*

As a Software Testing Intern at Codemastr, I was responsible for assisting the development team in ensuring that software products were thoroughly tested and met quality standards.

I gained experience in manual testing and automated testing, and I worked on a project related to web development and mobile application. Specifically, my responsibilities included:

- Creating test cases and test plans based on project requirements
- Executing manual tests to validate software functionality and identify defects
- Developing and maintaining automated tests using Selenium
- Collaborating with the development team to reproduce and troubleshoot defects
- Participating in team meetings to discuss project progress and testing status
- Creating and maintaining testing documentation and reports
