Technical Profile

- SQL
- JavaScript
- Java

Well-qualified Full Stack Developer and Database Administrator familiar with wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Handles any part of process with ease. Collaborative team player with excellent technical abilities offering close to 1.5 years of related experience.

Work History

2022-01 – 2022-07

Full Stack Developer

CodeSmiths India, Vadodara

- Collaborating with cross-functional teams to gather and document business requirements
- Developing and maintaining RESTful APIs using .NET Core
- Creating responsive user interfaces using React
- Designing and implementing SQL databases using SQLServer and MySQL
- Writing complex SQL queries and stored procedures to retrieve, manipulate and store data
- Optimizing database performance through indexing and query optimization techniques
- Developing and maintaining automated tests using Selenium
- Deploying web applications to AWS and managing cloud infrastructure using Docker and Kubernetes

2021-05 - 2021-11

Backend Developer

ExigioTech India, Vadodara

- As a Full Stack Developer at this Company, I was responsible for building a comprehensive HRMS system using DotNet Core, SQL, and React. My primary focus was on developing and implementing the system's back-end architecture, while also creating intuitive and responsive front-end user interfaces.

2020-11 - 2021-04

Software Testing Intern

Codemastr India, Vadodara

As a Software Testing Intern at Codemastr, I was responsible for assisting the development team in

- CSS
- .NET
- .NET Core
- MySQL
- JIRA
- Bootstrap
- React
- SQL Server
- GitHub
- Selenium
- Spring Boot

ensuring that software products were thoroughly tested and met quality standards. I gained experience in manual testing and automated testing, and I worked on a variety of projects related to web development and mobile applications.

Specifically, my responsibilities included:

- Creating test cases and test plans based on project requirements
- Executing manual tests to validate software functionality and identify defects
- Developing and maintaining automated tests using Selenium
- Collaborating with the development team to reproduce and troubleshoot defects
- Participating in team meetings to discuss project progress and testing status
- Creating and maintaining testing documentation and reports

Education

2022-07 - 2024-05	**Master of Computer Application (MCA)**
	CHARUSAT University
2019-07 - 2022-07	**Bachelor of Computer Application (BCA)**
	Navrachana University - Vadodara, Gujarat
